SIMCOP JPEG Encoder
Version 01.01.00

Release Notes

Sept 2012

Build ID: 01.01.00

The release note is divided into the following sections:

- New In This Release
- Validation Information
- Fixed In This Release
- Known Issues

New In This Release

- None

Validation Information

Release Configuration	Description	Validation Platform
Full Feature Mode	MJPEG Encoding and streaming @5fps.	DM812x ES2.1 IPNC DM385

Fixed In This Release

Defect ID	Description

Known Issues

Defect ID	Description
TBF	Encoder encodes frame with restartInterval of 8 MCU always.
TBF	The performance of the encoder depends on the input Frame width to be multiple of 8 MCU.
